THE NEVADA SENATOR TALKS ON SILVER.

DOUBLE THE VOLUMESOF MONEY OF THE COUN-TRY, HE REPEATS, AND DOUBLE THE BUSINESS; AND THERE YOU ARE-THE

CURRENCY QUESTION IN THE

NEXT NATIONAL CAMPAIGN. Senator John P. Jones, of Nevada, is at the Astor House, Senator Jones was a delegate to the last International Monetary Conference held at Brussels and was also named as a delegate to the next conference, but declined to serve. Senator Jones, of Arkansas, was named to fill his place. The Nevada Senator is much irritated over an un-The Nevada Senator is much irritated over an un-authorized interview which was published in a morning paper in which he is quoted as saying that Senator Pettigrew and Senator Dubois and ex-Representative Joseph C. Sibley were in the city as representatives of Western silver men and in-tended to purchase a newspaper to volve their tended to purchase a newspaper to voice their tended to purchase a newspaper to voice their creed. Senator Jones in speaking of this interview said: "I don't know on what grounds such an interview is based. I never said any such thing and moreover don't believe what I am alleged to have said. I have not seen Dubois or Pettigrew and know nothing of their plans. As for Sibley I do not think that he has been in the city at all. The advisability of purchasing a paper in New-York to boom a candidate for the Presidency on the free beem a candidate for the Presidency on the free silver platform was discussed, and I objected to it, silver platform was discussed, and I objected to I do not believe that a paper with a single cry, even if it's the cry of free silver, will succeed any place. To have a silver paper you must have a great newspaper in all departments, or it will not do any good. We could not secure any of the influential papers of New-York and there is not time to build up one and I vetged the whole scheme. I to build up one, and I vetoed the whole scheme. I do not think that the matter was ever even seriously considered.

Senator Jones spoke about silver and the part he thought it would play in the National politics of this country during the next two years. He said in reference to the next International Monetary Conference: "I declined to be a delegate because I believed that it would be time thrown away. As a delegate to the last International Conference, I was placed in touch with the financial centres of Europe. I feel convinced that the next conference will be a sham and a mockery. The delegates will meet, pat each other on the back, flatter each other chour the second other about the greatness of their respective nations, and adjourn without doing one thing to ease the financial ills of the world. I wanted nothing to do with The whole trouble is traced to the bond-owning, money-lending bankers of Europe. There is not a nation in the world that can go to war without consulting these money lenders. These men mo-nopolize the money of the world. They grip a nation by the throat and relentlessly throatle it, so that they may squeeze out drop by drop its life-blood to get their usurious interest. It is estimated that these money sharks have accumulated \$50,000. 000,000 of unearned increment, and yet they relentlessly maintain their course of nation wrecking When a monetary conference meets the hand of this gigantic combination is felt and the conference is compelled to throw it a sop, and the result is sheer foolishness.

"As to silver itself," said Senator Jones, "the entiment is growing. The odd feature to me in all this goldbug cry of monometallism is that while a dollar may go below par it never goes above. When a silver dollar gets down to a value of 50 cents then the report of a depreciated currency is made, and bankers say that money is cheap and the volume must be reduced. In the great silver fight in the Senate, when the Sherman Silver Purchase act was repealed, I made the assertion, and defied any one to refute it, that there was not \$20,000,000 of unone to refute it, that there was not accumed of the coined silver in the world to-day. It could not be contradicted. Decrease the volume of money, and just so surely you will decrease the volume of busi-ness. When I was a boy I worked in a bank as a bookkeeper. That was before the goldfields of Call fornia and Australia were discovered. Money was tight, and yet the cry was that there was too much money in the world, and interest was as low as money in the world, and interest was as low as 3, 4 and 5 per cent. Then came the discovery of the new goldfields, and the volume of money in the world was doubled. The result was that every one had money. Business boomed and interest jumped had money. Business boomed and interest jumped from 3 to 8 and 9 per cent. Interest is the barome-ter indicator of a nation's prosperity. The banker and money-lender says to-day that there is too much money in the world, and points as proof to the fact that interest is down to 2 and 3 per cent. Then fact that interest is down to 2 and 3 per cent. Then came the conspiracy against silver in order to make gold go up. It is all wrong in theory, and the practice makes the distress that the country feels to-day. If you had \$1,000,000 at this moment what would you do with it? You would go out and talk with business men and promoters. On every side you would meet with gloomy forecasts. There is apparently no money to be made any place, and as a result you tuck your money in the bank or he your pocket and wait for better times. The only relief is to swell the ness will follow, and a new era of prosperity will

onen to the country. Now, how are you going to swell the volume of money? There is in the world to-day \$200,000,000,000 of money. At least that is the estimate, but I do not believe that there is that much. Now in order to double the business of our country you must double the money. Interest will jump from 2 and 3 per cent to 5 and 6 per cent when the new order of things is established, and the merchant and business man sees a chance to go into business where he will make money. But just here we are confronted with an obstacle. To double the money of the world we must secure the sum of \$480,000.0000 in current specie. There is not that misch uncolled money in the world. As I said, there is not \$20,000,000 of uncolned silver, and there is less good. Where is it to come from? The tdea must be worked out as fully as possible with our means. Coin the money that is in uncolned metal. Then you come back to silver. The increase of money will be felt and business will grow as the volume of money grows. Then as business grows money will come out of the ground. It will be the fruit of the Nation's prosperity, and eventually as the volume of money and the volume of business increase in a rath, you will arrive at the end you were striving for in reviving the Nation's business, which has been prostrated for two years past, and it all can be traced to the juggling with our financial system; the attempt to secure an elasticity of currency that will contract when interest is low and expand when it is high, and so on. The question of silver in politics is a big one. things is established, and the merchant and

terest is low and expand when it is high, and so on. It is all a militaken theory and will be righted in time.

"The question of silver in politics is a big one. Silver stands in a unique position. It has passed beyond a political issue, and has become a principle for which the poor and laboring classes are making a fight. It is a fight for emancipation from the gold system which is sucking the life out of the poor as much as was the fight of 1776 against England's tyranny for similar rellef. It is bound to come, and the masses will outnumber the capitalists.

"I think that in 1896 the greatest fight that the country has ever seen will be made to secure recognition for silver. The people are not organized as a gilver party, but each one feels his wrongs individually, and the united vote will be tremendous. The question is whether there will be a distinctive silver party in the field at the next election. It depends upon the attitude of the old parties. No candidate that has been named by the old parties. No candidate that has been named by the old parties will completely satisfy the West unless such candidate that has been named as a candidate has ambiguous and gold-fraught utterances of the past. Mr. Sibley has been named as a candidate on a silver ticket in the next campaign. Mr. Sibley does not wish to run, and will withdraw quickly if either of the old parties makes satisfactory concessions to silver. But if they do not he will enter the field and no candidate that has ever run on an independent ticket before has ever had the following that will be his. Silver ignored means the birth of a new party. A new party means defeat or disorganization for the old parties. We believe and hope that the Republican or the Democratic party will recognize us and then the formation of a new party will not be necessary. The tidal wave that carried Grover Cleveland into the White House was a protest against hard times, for which the Republican party was bamed. The election of last fail was a similar protest, only that Democr

MRS. ARTHUR PAGET ARRIVES HERE.

Mrs. Arthur Paget, the only daughter of Mrs. Paran Stevens, arrived here yesterday morning in the steamship Lucania, and was met by J. M. SCHOOLMASTERS AT DINNER.

The monthly meeting and dinner of the Schoolma ters' Club, of New-York, was held last night in the St. Denis Hotel. Channing Stebbins, of Grammar School No. 39, Brooklyn, presided. The topic of discussion was "Elementary Education." United States Commissioner W. T. Harris opened the debate. He spoke on the correlation of studies, and gave a history of education. He also spoke of the leaders in educational work, and said that under the new system of graded schools the schoolmaster was enabled to do ten times as much work as he had done by the old method.

Among those present were State Superintendent Addison P. Boland, Commissioner John L. N. Hunt, Alexander B. Ketchum, and Martin H. Hay, of Grammar School No. 51.

WHAT HE MEANT.

From The Cincinnati Tribune. day, of the Senate Judiciary Committee appointed to inquire as to the necessity of the proposed law to increase the salary of the Recorder and to give to him the power of all appointments in the Court of General Sessions. Mr. Walsh, clerk of General Sessions, received a dispatch from the committee at Albany, saying the investigation would not continue, but not saying when it would resume. It was the impression about the court that no more costons of the committee will be held.

BAYONNE.

County Physician Charles R. Converse, of Hudson County, held yesterday afternoon with several local physicians an autopsy upon the body Diedrich H. Garbs, the Constable Hook liquor-dealer who was fatally stabled a week ago yesterday morning by his next door neighbor, Patrick Sheehan, in a quarrel in the hallway of the victim's Sheehan, in a quarrel in the hallway of the victim's home. It was satisfactorily shown that the death of Garbs was due to the hemorrhages from the knife thrust, which penetrated his left long. Dr. Converse accordingly ordered Coroner Anthony J. Volk to hold an inquest into the victim's death. Coroner Volk had Constable McAneny impaniel a jury, and adjourned the inquest until next Wednesday evening. The prisoner, Sheehan, was arraigned in the Bayonne Police Court upon a charge of murder, Chief of Police McNeill testified that he took the ante-mortem statement of Garbs, and was present when Garbs identified Sheehan as his assallant. Sheehan denied that he had in any manner injured Garbs, Recorder Conneily committed Sheehan to the Hudson County Jall to await the action of the Hudson County Grand Jury.
